JANNATUN FIRDOUS

Computer Science & Engineering | Software Development | Cloud & Backend Technologies

Kakinada, Andhra Pradesh • 8967341606 • jannatfirdous823@gmail.com
linkedin.com/in/jannat-firdous-0542782ab/ • GitHub: github.com/yasminsonal

CAREER OBJECTIVE

Computer Science Engineering student with hands-on experience in software development, backend systems, cloud computing, and DevOps fundamentals. Skilled in Java, Python, JavaScript, SQL, REST APIs, AWS, Docker, and Linux, with experience building projects involving backend workflows, serverless applications, databases, and cloud services. Strong foundation in problem-solving, debugging, and core computer science concepts, with an interest in building reliable and practical technology solutions.

EDUCATION

Aditya College of Engineering and Technology — B.Tech, Computer Science & Engineering

Jul 2023 – May 2027 • CGPA: 8.6/10 • Surampalem, Andhra Pradesh

TECHNICAL SKILLS

Programming: Java, Python, JavaScript, SQL
Backend & Web: Node.js, Spring Boot, REST APIs, HTML5, CSS3, API Integration
Cloud & DevOps: AWS (EC2, S3, Lambda, DynamoDB), Docker, Docker Compose, Linux, Azure
Databases: MySQL, PostgreSQL, MongoDB, DynamoDB, Snowflake, Power BI
Software Engineering: Object-Oriented Programming, Data Structures & Algorithms, SDLC, Debugging, Testing
Tools: Git, GitHub, Postman
Core Concepts: DBMS, Operating Systems, Computer Networks

EXPERIENCE

Generative AI Intern | SmartBridge | Jun 2026 – Aug 2026

- Worked on Generative AI applications and explored practical implementations of AI-driven software solutions.
- Participated in developing, testing, and debugging application components while working with modern AI technologies.
- Applied analytical and problem-solving skills to improve the functionality and reliability of technical solutions.

Cloud & DevOps Intern | Technical Hub | May 2026 – Jul 2026

- Worked with Docker, Docker Compose, Linux, and cloud infrastructure as part of application development and deployment workflows.
- Practiced containerization and troubleshooting of application and deployment-related issues.
- Gained hands-on exposure to cloud and DevOps practices, including development workflows and system configuration.

Cloud Intern | Technical Hub | May 2025 – Jul 2025

- Worked with AWS cloud services and cloud-based application workflows.
- Built practical understanding of cloud infrastructure, APIs, databases, and service integration.
- Strengthened software development and problem-solving skills through hands-on technical projects.

PROJECTS

CommerceFlow | E-Commerce Management System

Java | Spring Boot | REST APIs | MySQL

- Developed backend components for managing products, customers, and order workflows.
- Designed RESTful APIs and database operations to support structured data exchange and application functionality.
- Applied Object-Oriented Programming principles and debugging practices to build maintainable software components.

FoundIt | AI-Powered Lost & Found Platform

AWS S3 | Lambda | DynamoDB | Rekognition

- Developed a cloud-based platform for reporting and managing lost items using image-based identification.
- Built serverless workflows by integrating AWS S3, Lambda, DynamoDB, and Rekognition for image storage, processing, and data management.
- Designed interactions between cloud services to support efficient image processing and item retrieval.

DevOpsGPT | AI-Powered Cloud Operations Platform

Python | AWS | Docker | REST APIs

- Developed a platform to support cloud infrastructure monitoring, diagnostics, and operational workflows.
- Integrated REST APIs and AWS services to automate cloud data retrieval and operational tasks.
- Used Docker to support consistent application environments and improve deployment reliability.

CODING ACHIEVEMENTS

- Solved 500+ Data Structures and Algorithms problems on LeetCode.
- Solved 300+ programming problems on GeeksforGeeks.
- Achieved 5-star ratings on HackerRank in Java, Python, and SQL.
- Solved 500+ programming problems on CodeChef.

CERTIFICATIONS

- Java Programming — Oracle Academy
- AWS Certified Developer – Associate
- Python — Red Hat Academy
- Operating Systems — Red Hat Academy
- AWS Academy Cloud Developing
- AWS Academy Cloud Foundations

STRENGTHS

Problem Solving • Analytical Thinking • Debugging • Logical Reasoning • Team Collaboration • Adaptability
