PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering student (CGPA 8.6/10, graduating May 2027) targeting backend and cloud engineering roles. Built REST services in Java Spring Boot and C# ASP.NET Core and serverless AWS applications, picking up new stacks quickly across three internships and three projects. AWS Certified Developer – Associate. Quick learner who adapts fast: where a required skill is new to me, I commit to learning it on the job and getting productive soon.

TECHNICAL SKILLS

Languages: Java, Python, C++, C#, JavaScript, Dart, SQL
Backend & Web: Spring Boot, ASP.NET Core, Node.js, REST APIs, API Integration, OOP, Flutter, HTML5, CSS3
Databases: MySQL, PostgreSQL, MongoDB, Amazon DynamoDB
Cloud & DevOps: AWS (EC2, S3, Lambda, IAM, API Gateway, CloudWatch, RDS, Systems Manager), Docker, Docker Compose, GitHub Actions (CI/CD), Linux/Ubuntu
Tools & Testing: Git, GitHub, Postman, JUnit, xUnit, Linux CLI, Debugging, Version Control
Core CS: Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks, SDLC

PROFESSIONAL EXPERIENCE

SmartBridge | Remote Jun 2026 – Aug 2026
Generative AI Intern | Python, APIs, Prompt Engineering
- Integrated APIs into Python application logic and applied prompt engineering to support AI-powered software features.
- Tested components, debugged defects, and refined solutions based on team feedback.

Technical Hub | Remote May 2026 – Jul 2026
Cloud & DevOps Intern | AWS, Linux/Ubuntu, Docker, Docker Compose, Git
- Containerized and deployed applications on AWS using Docker, Docker Compose, and Linux (Ubuntu) environments.
- Used Git/GitHub for version control and troubleshot application and environment issues.

Technical Hub | Remote May 2025 – Jun 2025
Cloud Intern | AWS, Linux/Ubuntu, Backend Fundamentals
- Practiced AWS services, Linux command-line operations, and basic deployment workflows.

PROJECTS

DevOpsGPT Phoenix | AI-Assisted Cloud Monitoring and Automated Recovery Platform
Python, Node.js, AWS Lambda, API Gateway, DynamoDB, CloudWatch, Systems Manager, Flutter, GitHub Actions
- Built a serverless REST backend (Lambda, API Gateway, DynamoDB) ingesting CloudWatch EC2 metrics, logs, and alarms; tracked 4 servers and 47 alerts.
- Implemented AI-assisted root-cause analysis and Lambda recovery actions (e.g., service restarts) for predefined failures.
- Developed a cross-platform Flutter dashboard; automated CI/CD with GitHub Actions; secured APIs (API keys, IAM).

CommerceFlow | Integrated E-Commerce and Logistics Management System
Java, Spring Boot, C#, ASP.NET Core, REST APIs, SQL, AWS, JUnit, xUnit, Postman
- Architected a two-service backend: Java Spring Boot (customer commerce) and C# ASP.NET Core (inventory, warehouse, shipments) linked by JSON REST APIs.
- Designed a normalized relational schema of 8 entities, including users, products, orders, inventory, and shipments.
- Defined unit, API, integration, and negative tests (JUnit, xUnit, Postman) and an AWS deployment design.

NEXUS – Your Own Agent | Unified Multi-Agent AI Personal Assistant System
Python, AWS, Amazon Cognito, HTML, CSS, JavaScript, LLM APIs
- Designed a 5-agent AI personal assistant (Mail, Planner, Resume, Learning, Meeting & Event) with independent modules whose outputs are merged into a single daily digest dashboard.
- Built the HTML/CSS/JS dashboard, AWS cloud backend, and AI agent integration; secured user sign-in with Amazon Cognito so each user can access only their own dashboard and data.

CERTIFICATIONS AND ACHIEVEMENTS

- AWS Certified Developer – Associate | Java (Oracle Academy) | Python and Operating Systems (Red Hat Academy)
- 500+ LeetCode, 500+ CodeChef, 300+ GeeksforGeeks problems; 5-star HackerRank in Java, Python, SQL
- IBM Explore Emerging Tech | BOARD Data Science | AWS and DevOps Certification | AWS Academy Cloud Computing

EDUCATION

Aditya College of Engineering and Technology Jul 2023 – May 2027
B.Tech, Computer Science and Engineering | CGPA: 8.6/10 | Surampalem, Andhra Pradesh
